EXPERIENCE

Marriott Hotels US (Freelance) — Senior Flutter Developer

September 2024 – Present

- Developed a booking system for distressed airline passengers, supporting multi-user roles (Hotel Admin, Airline Staff, Passengers).
- Designed and implemented features for efficient room booking, notifications, and real-time updates.
- Followed clean architecture and Bloc for scalable and maintainable code.

MobileMo, Makati — Senior Flutter Developer

June 2024 – Present

- Built web and mobile task management apps for enterprise clients.
- Implemented Bloc for state management and unit testing for robust code.
- Led team in AI model selection and integration.
- Set up CI/CD pipelines using Codemagic and established standard Flutter best practices.

Guerilla 360 Integrated Solutions, Makati — Senior Flutter Developer

Nov 2023 – April 2024

- Developed HMR Mobile, an e-commerce app with a unique auction system and real-time notifications.
- Applied Bloc, Clean Architecture, and WebSockets for performance and scalability.
- Contributed to UI design and overall app functionality; app launched May 2024.

PayMaya / Maya Funds — Flutter Developer

July 2022 – September 2023

- Built investment and integration features for Maya's digital banking app using Flutter.
- Implemented Clean Architecture, Bloc, Hive, GetIt, and method channels for native integration.
- Delivered production-ready features, now live in the Maya app.

Hooli Development Services, Bulacan — Software Engineer

June 2020 – June 2022

- Led development of Ready Agent, an Uber-like app for real estate agents with real-time location tracking.
- Created responsive UI standards using a Size Config system and integrated Google Maps polyline tracking.

Pambayang Dalubhasaan ng Marilao, Bulacan — College Instructor

June 2023 – August 2023

- Taught Flutter to two sections of 3rd-year IT students, prepared lesson plans, and guided hands-on projects.

EDUCATION

Pambayan Dalubhasaan ng Marilao, Bulacan— BS- Computer Science

2016 - 2020

PROJECTS

PaxAide —

September 2024 - PRESENT

Built a feature-rich Flutter app for passengers and airlines with booking management, notifications, and scalable architecture.

Kustom360 v2 —

June 2024 - November 2024

Developed a fully customized Flutter management app for multiple industries with employee tracking, inventory management, accident

reports, and AI-powered query/report generation.

HMR Mobile —

July 2022 - May 2024

HMR is an E-Commerce app that has a unique auction feature that lets users of the app bid on an item and also notifies them when they have won the auction or lot.

Maya Funds —

July 2022 - September 2023

One of Maya's Features for investments. It is made with Flutter and uses clean architecture and Bloc for state management. It is now live in production.

[Maya – all-in-one digital bank - Apps on Google Play](#)

Ready Agent —

June 2021 - June 2022

A Grab-like app that has Real Estate Agents as its customers, users can book real estate agents for a house tour, the app can track the customer and the agent's location. It uses Google Maps and polyline to visualize the tracking. It is also available in Both playstore and appstore.
